選択/必修： 必修 Compulsory	単位数： 1	セメスター： 1 後 1 Fall	開講言語： English

○Purpose

In this course, students will learn the fundamentals of academic research writing, while at the same time replicating a research study.

○Contents of the course

This is a course designed for postgraduate students required to write academic papers. Students will learn how to organize and write long research essays. They will learn how to read research papers, gather data, and learn about referencing methods used in their fields. In the end, they will write a 10-page replication study. Particular attention will be paid to the academic and language skills necessary for academic writing: structuring the essay clearly; presenting the thesis; writing academic citations; giving information concisely and persuasively; presenting research methodologies and data findings both quantitatively and qualitatively; presenting visual data; presenting literature critically; linking data with key literature; and making conclusions and implications for practice.
